Bowen family systems theory: goal of therapy?

FAM-002

A family's tendency to keep its familiar balance, which can make it resist change, even helpful change.

Watzlawick, P., Weakland, J., & Fisch, R. (1974). Change: Principles of Pro...

FAM-001

Systems thinking sees behavior as mutually reinforcing loops (each person's response feeds the other's) rather than one cause producing one effect.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-004

The family member whose symptoms bring the family in; systems models see the symptom as reflecting the whole family's patterns.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-003

First-order: change within the existing rules. Second-order: change in the rules or structure themselves.

Watzlawick, P., Weakland, J., & Fisch, R. (1974). Change: Principles of Pro...

FAM-006

A diagram of at least three generations showing relationships and patterns (illness, substance use, cutoffs). Rooted in Bowen theory, used across models.

McGoldrick, M., Gerson, R., & Petry, S. (2020). Genograms: Assessment a...

FAM-005

Contradictory messages at different levels with no way to escape or comment on them. Once proposed as a cause of schizophrenia; that theory is abandoned.

Bateson, G., Jackson, D. D., Haley, J., & Weakland, J. (1956). Toward a th...

FAM-008

Increasing differentiation of self, not simply removing the symptom.

Bowen, M. (1978). Family Therapy in Clinical Practice. Jason Aronson diff...

FAM-007

A diagram of the family's current connections with outside systems (school, work, agencies), showing strong, weak and stressful ties.

Hartman, A. (1978). Diagrammatic assessment of family relationships. S...

FAM-024

Boundary making?

FAM-018

Diffuse boundaries: members are overinvolved, with little privacy or autonomy. Not the same as healthy closeness.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-017

Rigid boundaries lead to disengagement; diffuse boundaries lead to enmeshment; clear boundaries are healthy.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-020

Parents avoid their own conflict by uniting around a 'problem' or 'sick' child.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-019

A parent and child align against the other parent, undermining the parental subsystem.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-022

The family acts out its problem interaction in session; the worker observes and then intervenes to restructure it. Structural therapy's signature technique.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-021

The worker accommodates to the family's style (tracking, mimesis) to build the alliance. The usual first step.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-024

Interventions that strengthen or loosen boundaries, such as changing seating or blocking a child from interrupting the parents.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...

FAM-023

The worker temporarily sides with one member to shift power and disrupt a stuck pattern.

Minuchin, S. (1974). Families and Family Therapy. Harvard University Pre...
